Continuation of Disposition of Claims: Claims withdrawn from consideration are 3,4,6,7,9-11,14,15,17,18,20-22,25,26,28,29 and 31-44.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 5, 12, 13, 16, 23, 24 and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Smith et al.

See Fig. 1 where element 10 is attached to the seat by adhesive (col. 5, line 38). Plastic is taught at col. 7, line 40.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 8, 19, and 30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Smith, as applied supra, in view of Porzio.

To employ a “warning graphic”, such as taught by Porzio, would have been obvious to the ordinary artisan as same is taught in an identical art device.

Claims 3, 4, 6, 7, 9-11, 14, 15, 17, 18, 20-22, 25, 26, 28, 29 and 31-44 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 10/6/04.

Art Unit: 3751

Regarding claims 34, the elected Fig. 1 does not show the device attached to the lid.

Shepard shows a pivoted handle attached to a seat. Riggle and Blanck show other toilet handles.
